Security Services & Customer WiFi

**HD Camera
Surveillance**

**True Internet
Broadband**

With millions of dollars in landscaping, vehicles, and pro shop inventory, it is absolutely essential to invest in a security camera system to prevent theft and damage and monitor operations.

View and Record Live Video From Any Location

Video Surveillance for your Golf Course and Pro Shop

Golf courses are the perfect environment for video surveillance because of the value of pro shop and golf cart inventory and its susceptibility to theft. Golf course landscaping is also exposed 24 hours a day – leaving them open to theft and destruction.

Benefits of Golf Course and Pro Shop Surveillance

Prevent Theft – Like other retail stores, pro shops are an important profit center for any golf course. Protecting inventory and potential profit is an essential aspect of sales, and with expensive inventory such as golf cart fleets, security becomes that much more important. Video surveillance cameras placed around the property can help prevent thieves, as well as identify thief identification.

Track Customers and Visitors

The ability to track customer habits can be valuable information for marketing, inventory, and staff. Video security cameras, especially those equipped with intelligent video analytics technology, can help you count and track customers as they move around your grounds and business.

Protect Buildings, Employees, and Customers

Surveillance cameras can help by keeping your security staff posted about any security issues that arise throughout the day. Modern security cameras allow staff to be more flexible in their duties with features like video alerts and mobile viewing. Instead of sitting in front of a monitor all day, security guards can actively patrol your grounds and receive alerts from cameras.

A surveillance system at a golf course can be a great way to cut down on abuse or vandalism from both staff and customers, and it can also be a great deterrent and aid in the prevention and prosecution of thefts. It can also be a great management information tool as it allows golf course owners to monitor remotely across the internet in live time and even remotely play back previously recorded events.

• **MULTIPLE HD CAMERA SURVEILLANCE** • **WIFI DIGITAL CAMERAS WITH RECEIVERS**

Which Business Security Company You Choose Matters

Why Choose SkyFidelity?

- SkyFidelity is always there to contact you and the police, fire department or emergency personnel right away when an alarm signal is received from your golf course
- Stay connected to the SkyFidelity Camera Surveillance Security System using your mobile phone with remote secure video available with 30 day backup
- Fast Alarm response and easy-to-use systems

The #1 Security Company

- Only SkyFidelity can provide you with Multiple HD Video Camera Surveillance extending throughout your golf course using state-of-the-art WiFi Access Point technology
- Only SkyFidelity can provide HD Surveillance Cameras for your entire golf course utilizing proprietary WiFi Technology Access Points
- 24/7 customer support available

SkyFidelity offers Golf Courses Secure and Reliable High-Speed Internet Connectivity

Create a WiFi experience for your customers!

Along with Wifi camera security you can offer customers “free WiFi” at your golf course in the pro shop or on the green. The Skyfidelity WiFi solution lets you deliver a great customer experience and promote business growth.

- A fast, secure private network for your business plus a separate public network for customers
- Access hot-spots on the go from the nation’s largest and fastest WiFi network
- Connect any device – desktops, lap tops, smart phones, tablets, ...etc
- Make customers happy by giving them a reliable network to connect to
- Market your business with custom Splash & Landing pages that allow you speak directly to your customers before they connect to your WiFi
- Control your WiFi anytime, anywhere with Remote Configuration – browser and smart phone supported
- Expand the wireless footprint of your business with multiple access points
- Get a professional installation from our highly trained technicians, who will provide general operating directions and eliminate dead zones
